

Editor's Note

A dreidel is a four-sided spinning top, played with during the Jewish holiday of Hanukkah. Each side of the dreidel shows a letter of the Hebrew alphabet—NUN, GIMEL, HEI, and SHIN. Together, they form an acronym for the phrase, “a great miracle happened there,” referring to the ancient miracle that happened in the land of Israel.

Each player begins with an equal number of game pieces (usually 10-15). The game pieces may be any small objects, such as pennies, raisins, nuts, pretzel sticks, or small candies (like M&Ms). Players sit in a circle on the floor with the dreidel in the center. At the beginning of every round, each player puts one game piece into the center. This becomes the “pot.” During their turn, each player spins the dreidel once. Depending on which side is facing up when the dreidel stops spinning, the player gives or takes pieces from the pot.

- If NUN is facing up, the player does nothing.
- If GIMEL is facing up, the player gets everything in the pot.
- If HEI is facing up, the player gets half of the pot.
- If SHIN is facing up, the player adds one game piece to the pot.

Any time the pot is empty or has only one piece remaining, every player adds one piece to the pot. The game lasts until one person has won everything from the pot.
